62.18	Sec. 7. Minnesota Statutes 2022, section 121A.035, is amended to read:
62.19	121A.035 CRISIS MANAGEMENT POLICY.
62.20 62.21 62.22 62.23	Subdivision 1. Model policy. The commissioner shall maintain and make available to school boards and charter schools a model crisis management policy that includes, among other items, <u>cardiac emergency response plans</u> , school lock-down and tornado drills, consistent with subdivision 2, and school fire drills under section 299F.30.
62.24 62.25 62.26 62.27 62.28 62.29 62.30 62.31 62.32 62.33	Subd. 2. School district and charter school policy. A school board and a charter school must adopt a crisis management policy to address potential violent crisis situations in the district or charter school. The policy must be developed cooperatively with administrators, teachers, employees, students, parents, community members, law enforcement agencies, other emergency management officials, county attorney offices, social service agencies, emergency medical responders, and any other appropriate individuals or organizations. The policy must include at least five three school lock-down drills, five school fire drills consistent with section 299F.30, and one tornado drill, and one cardiac emergency response drill consistent with section 121A.241. An active shooter drill conducted according to the criteria established in section 121A.038, subdivision 2, is equivalent to a school lock-down drill.
63.1	Sec. 8. Minnesota Statutes 2022, section 121A.037, is amended to read:
63.2	121A.037 SCHOOL SAFETY DRILLS.
63.3 63.4 63.5 63.6 63.7	Private schools and educational institutions not subject to section 121A.035 must have at least five three school lock-down drills, five school fire drills consistent with section 299F.30, and one tornado drill, and one cardiac emergency response drill consistent with section 121A.241. An active shooter drill conducted according to the criteria established in section 121A.038, subdivision 2, is equivalent to a school lock-down drill.
63.8	Sec. 9. [121A.055] SAFE SCHOOLS TRANSPARENCY.
63.9 63.10 63.11 63.12 63.13	A charter school or school district is prohibited from engaging in retaliatory action against a teacher or other school employee for discussing incidents of school violence or dangerous conduct. A school or school district must not retaliate against an employee for participating in an investigation, hearing, or inquiry regarding school and classroom safety. Nothing in this section waives a student's data privacy rights under federal and state law.

Sec. 10. [121A.241] CARDIAC EMERGENCY RESPONSE PLAN.

House Language H5237-3

"cardiac emergency response plan" is a written document that establishes specific steps to reduce death from cardiac arrest. A cardiac emergency response plan must integrate divence-based core elements, such as those recommended by the American Heart Association in accordance with a published, peer-reviewed journal article or similar document. (b) Beginning in the 2025-2026 school year, a school district or charter school must develop a cardiac emergency response plan that addresses the appropriate use of school personnel to respond to incidents involving an individual experiencing sudden cardiac arrest or a similar life-threatening emergency while on school grounds or at a school-sponsored activity or event. A district or charter school must consult with athletic trainers when developing the plan. A principal or other person having administrative control over the school site must ensure that the plan is: (1) available to the school community on the school website and in paper form at various locations at the school site; (2) distributed to all coaches and other athletic staff members at each school site, all persons responsible for executing the plan in the event of a cardiac emergency, all health care professionals that provide medical services during school-sponsored activities or events, and to other appropriate school staff, as determined by school administrators; and (3) annually reviewed, rehearsed, and revised, as necessary. (c) A cardiac emergency response plan must: (1) identify the members of a cardiac emergency response team at each school site who are on dury during the regular school day and while extracurricular activities are conducted at the school site; (3) require that automatic external defibrillators are available for use within close proximity to the site of a school-sponsored activity or event; identify where automatic external defibrillators; (4) require training on cardiopulmonary resuscitation and automatic external defibrillators: (4) require training on cardiopulmonary resus	63.16	Subdivision 1.
